

# Invest in Government backed Australian Gold

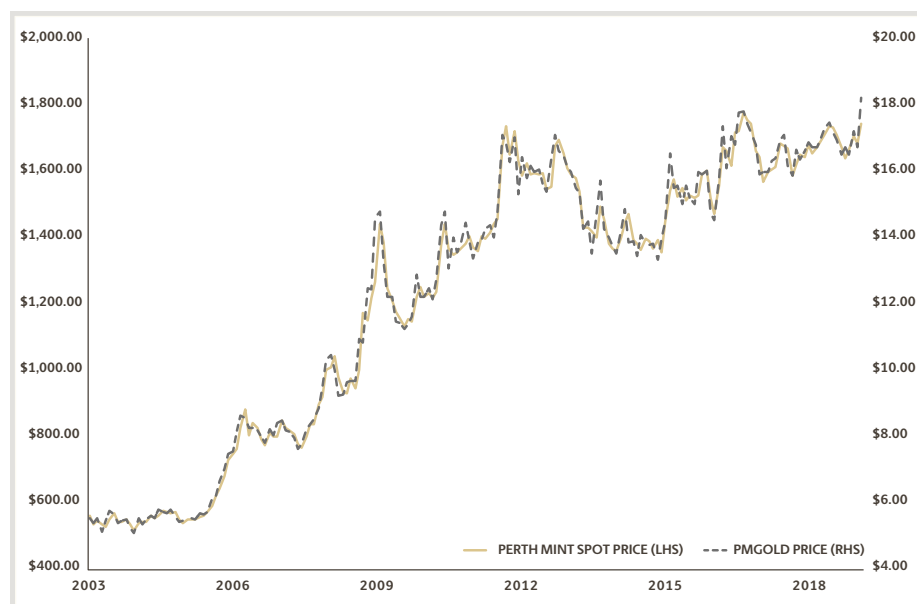

## INVESTMENT OBJECTIVE

PMGOLD is designed to track the international price of gold in Australian dollars and offers investors a simple, low cost way to access the returns on gold.

PMGOLD trades like a regular share and is purchased via a stock broking account. Each PMGOLD unit represents ownership of 1/100th of a troy ounce of gold. Investments in PMGOLD are fully backed by physical bullion held by The Perth Mint, with metal stored on investors' behalf guaranteed by the Government of Western Australia.

PMGOLD units can be redeemed for physical gold from The Perth Mint.

## PERFORMANCE SINCE INCEPTION

Performance Table (to Dec 18)

Time Period	PMGOLD Return
1 year	8.93%
3 years	7.78%
5 years	6.13%
7 years	2.50%
10 years	3.89%
15 years	8.27%
<b>Since Inception</b>	<b>7.73%</b>

Returns for periods greater than 1 year are annualised.  
Source: Reuters, The Perth Mint. Returns are gross of taxes, fees and trading costs.  
Past performance is not a reliable indicator of future returns.

## WHY INVEST IN GOLD

<b>Long Term Returns</b>	Gold prices have risen by an average of more than 8% per annum over the past 15 years.
<b>Diversification</b>	Gold has typically performed strongly when other markets have declined and has traditionally helped balance an investment portfolio.
<b>Inflation Hedge</b>	Gold is a well recognised hedge against inflation, historically helping to protect investor purchasing power over the medium to long-term.
<b>Risk Hedge</b>	Gold has typically performed strongly in periods of financial market stress, making it a simple and effective hedge against market, geopolitical and event risk.
<b>Currency</b>	As PMGOLD tracks the international price of gold in AUD it can provide a form of currency diversification for Australian investors.

## WHY PMGOLD

<b>Government Guaranteed</b>	PMGOLD is the only ASX-listed gold product which offers an explicit government guarantee on investor metal holdings.
<b>Low Cost</b>	PMGOLD is less than half the cost of similar products, with the lowest management fee of all products offering gold price exposure via the ASX.
<b>Redeemable</b>	PMGOLD allows investors to take physical delivery of metal in Australia, from as little as one troy ounce.
<b>Transparent</b>	Set at 1/100th of a troy ounce of gold, the price of PMGOLD is easy to compare to live Perth Mint spot prices.
<b>Highly Liquid</b>	PMGOLD invests only in physical gold, one of the most liquid assets in the world.

## ABOUT THE PERTH MINT

The Perth Mint is Australia's largest precious metals business, with annual turnover exceeding AUD 18 billion. We store physical metal worth more than AUD 3 billion on behalf of approximately 40,000 clients, ranging from individual investors and superannuation trustees, to central banks and sovereign wealth funds.

All metal deposits are underwritten by our owner, the Government of Western Australia, under the *Gold Corporation Act 1987*.

Founded in 1899, The Perth Mint refines more than 10% of annual global gold production including in excess of 90% of gold mined in Australia, and distributes products to over 130 countries each year.
