

THE PERTH MINT
AUSTRALIA

Australian Origin Gold

Responsibly sourced solely from Australian gold mines.

Responsibly sourced Australian gold

The mine to market journey of our products is 100% Australian, under strict segregation and traceability protocols that have been independently verified.

Our Australian Origin Gold 1kg gold bars are produced from gold doré responsibly sourced from primary mining sites located across Australia.

Since 2010, our refinery has maintained a certified ISO 14001:2015 Environment Management System.

This highlights our commitment to environmental responsibility for more than 15 years.

As a West Australian Government Trading Enterprise we are bound by the State's Environmental Policies and the Government's ambition towards decarbonisation and a greener future.

We have been a voluntary reporting entity under the Modern Slavery Act 2018 since 2021.

Under our sustainability strategy, we abide by:

- The LBMA's Responsible Gold Guidance and Responsible Silver Guidance.
- The OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas - Supplement on Gold.

Our commitment to sustainability is key to everything we do and, just as importantly, the activities that we choose not to do.

Know your customer

Our supply chain mines have undergone Know Your Customer (KYC) verification processes to ensure their operations are conducted in accordance with responsible environmental, social and governance principles.

We are regularly audited by the LBMA to ensure we always meet its exacting standards. We also undertake regular internal reviews of our compliance with the requirements of the other major international exchanges.

The Government of Western Australia, sole owner of The Perth Mint, guarantees all our operations, undertakings and obligations under the Gold Corporation Act 1987.

We have been refining gold for more than 125 years and our comprehensive guarantee is unique in the world of precious metals. We are trusted as one of the lowest risk refineries in one of the most secure geopolitical areas across the globe.
