Argyle Treasures™

“We felt we had a beautiful story of Australian gold and pink diamonds which needed to be told” - Tina Kircher.

Embodying the heart of Western Australia's rich landscape, this spectacular treasure features a blend of 291 incredibly rare pink and blue Argyle Diamonds™ set in pure 18 carat Australian Origin Gold®. The Argyle Treasures™ ring is an extraordinary collector's item, designed in-house at The Perth Mint.

The Argyle Treasures™ ring is The Perth Mint's first jewellery piece made from responsibly sourced Australian Origin Gold®, highlighting the importance of ethically sourced gold and gemstones from Western Australia.

Exquisite gemstones

Explore a stunning collection of luxury gemstones. Each piece is crafted to showcase the unique beauty of these precious jewels.

Natural nuggets

Gold nuggets are naturally formed with distinctive contours, making them spectacular one-of-a-kind jewellery pieces. Sourced from gold prospectors through our buy-back service, each nugget is hand-picked for its luminosity and shape, then crafted into unique jewellery pieces.

Rio Tinto's Beyond Rare™ Tender 2024

The Art Series 2 – Lot 37

For decades, jewellery enthusiasts and gemstone collectors have admired the beauty and rarity of Argyle Pink Diamonds™, found only at the Argyle Diamond Mine in Western Australia, which closed in 2020. With no new supply, these diamonds are highly sought after among collectors, jewellers, and luxury brands.

In 2024, Rio Tinto presented the Beyond Rare™ Tender: The Art Series 02, featuring 76 exquisite diamonds.

The Perth Mint proudly owns and showcases the stunning (Lot 37) diamond from this tender. Featuring a round brilliant cut, and weighing 0.55 carats, this extraordinary gemstone is a remarkable specimen, perfectly suited to be crafted into a bespoke family heirloom.
