Engagement and wedding ring guide

# The Wedding Collection

With a legacy spanning more than a century, The Perth Mint embodies timeless elegance and exceptional craftsmanship, making it a premier destination for couples seeking exquisite wedding and engagement jewellery. Within our heritage-listed boutique, you'll discover a collection that seamlessly blends classic sophistication with modern design – each piece crafted as a celebration of enduring love.

For those dreaming of something truly unique, our bespoke design service transforms personal visions into one-of-a-kind creations using superb gemstones and precious metals.

Let this guide inspire your jewellery design journey, while our expert consultants support you from first ideas to personalised curation.

Tina Kircher  
*Retail General Manager*

# Choose your ring size

**1** Select a ring that fits the intended finger. If you don't have one available, wrap a piece of string around the finger to act as a temporary size guide.

**2** Place the ring over the nearest matching circles. Match the inside edge of the ring to the circle nearest in size.

**3** If the ring size falls between two sizes, select the larger size to ensure resizing capabilities if required.

**4** To double-check, use a ruler to measure the inside diameter of your ring and match it with the measurements indicated in the circles.

# The golden standard

Our Australian Origin Gold™ is responsibly sourced and crafted exclusively from gold mined in Australia. Select pieces within our wedding collection are made in verified Australian Origin Gold™ and may also be created through bespoke design.

## Choose your precious metal

Your engagement ring and wedding bands are a timeless symbol of your commitment. Choose from a wide selection of high-quality metal options to create pieces of enduring quality and style.

# Selecting an engagement ring

Explore the essential elements of choosing your perfect engagement ring—from setting styles and gemstone shapes, to the four key diamond characteristics: cut, clarity, colour, and carat.

# Choose your setting

Choose from a variety of settings to create a ring that reflects your unique style. From intricate diamond bands to a classic solitaire, we have a stunning range to explore in-store. Alternatively, our skilled wedding jewellery design team can create a bespoke setting tailored to your preferences.

## Intricate diamond bands

Bands with diamonds set into them for added sparkle.

## Trilogy settings

Featuring three stones to represent your past, present, and future together.

## Halo setting

A central gemstone surrounded by a halo of smaller diamonds.

## Classic solitaire

A single gemstone setting that stands the test of time.

# Choose your gemstone

## Diamonds

Renowned for their brilliance and strength, diamonds are the quintessential choice for engagement rings.

## Pink diamonds

These rare gems are highly sought after for their delicate pink hue and exclusivity.

## Yellow diamonds

Offering a radiant golden hue, yellow diamonds symbolise joy, prosperity and positive energy.

## Sapphires

Available in a range of colours, but most famous for their deep blue, sapphires are a symbol of trust and loyalty.

## Emeralds

Valued for their vibrant green colour, emeralds are often associated with renewal and growth.

## Rubies

Known for their rich red colour, rubies symbolise passion and are believed to bring good fortune and courage.

## Opal

Each opal is unique, displaying a mesmerising array of colours that change with the light.

## Morganite

With its soft pink colour, morganite is a gem that symbolises divine love and compassion.

## Pearl

Symbolising purity, elegance and timeless romance, pearls offer a uniquely soft, luminous alternative to traditional gemstones.

Speak to one of our wedding jewellery consultants if you wish to choose a bespoke gemstone. We can source quality gemstones available in Australia and internationally.

## Choose your diamond size

Diamonds are sold by carat (ct) which refers to the weight of the stone.

## Choose your gemstone shape

Choose the gemstone shape that resonates with you. Whether round, oval, or pear, select the style that feels most meaningful to your love story.

# Understanding diamond clarity

Diamond clarity refers to how free a diamond is from internal inclusions and external blemishes, which affects how clean and brilliant it appears.

**FL**

No visible inclusions through a microscope

**VVS**

No visible inclusions through a jeweler's loupe at 10x magnification

**VSI**

No visible inclusions looking up close

**SI**

No visible inclusions looking at arms length

# Diamond colour chart

While diamonds appear white at first glance, they naturally contain varying degrees of yellow or brown hues—subtle tones formed by trace elements and environmental conditions during their geological creation.

# BEYOND RARE™

## THE ARGYLE PINK DIAMONDS™ COLOUR CHART

As each Argyle Pink Diamond™ is unique, the images shown are representative of a range and the colour will vary within the categories. Please refer to our website [www.argylepinkdiamonds.com](http://www.argylepinkdiamonds.com) for colours not represented on this colour chart.
