Clients that reside outside Australia have the following options:

- Australian consular officer or Australian diplomatic officer (within the meaning of the *Consular Fees Act 1955*).
- Alternatively, documents should be notarised or certified by an acceptable authority in the country in which the client resides. For example: a notary public. Details of the certifier/notary as outlined above must be included.

All documents requiring certification should be certified/notarised by an independent person not connected to the account in any way.

Payment requirements

If you wish to purchase metal a minimum cash deposit of 10% of the total consideration of any proposed transaction must be lodged before PMDP will accept dealing instructions.

For purchases exceeding \$2 million the full amount of the proposed transaction must be deposited prior to the transaction. These policies ensure PMDP is not exposed to adverse precious metal price movements in the event that you withdraw from a previously agreed transaction for any reason.

Alternatively, the full amount of the proposed transaction can be deposited prior to the purchase transaction. It is not necessary to buy metal immediately and funds can remain in your account until ready to transact. Interest is not payable on cash balances.

On completion of a transaction, a trade confirmation will be emailed to you with details of the settlement amount, value date, and bank account details. The metal will be credited to your PMDP account upon receipt of the balance of the transaction, should funds not have been remitted in full prior to the trade. All outstanding funds are due in The Perth Mint's nominated bank account within two days of trade confirmation. Late payments may result in a trade reversal, with any losses incurred being charged to you.

Bank account details

For added protection, you must provide full banking details at the time of account opening.

A PMDP account must be in the same name as that of the bank account. All funds must be received from this account and all payments from precious metal sales must be remitted back to this account unless Gold Corporation is advised in writing and previously agrees to alternative arrangements. This complies with current Australian regulations and protects you against unauthorised payments to third parties.

Operating procedures and bank account details

Buying procedure

1. Contact The Perth Mint Depository by telephone or email. It is recommended that you telephone the office to fix a live price. Trades received by email will be processed using the price of metal at the time the transaction is processed and not the price at the time the email was sent or received.
2. The Perth Mint Depository will ask for your SEC number, name and password to verify your identity.
3. Instruct The Perth Mint Depository to buy:
 - (a) a specific quantity of product if you need allocated metal, or a specific dollar amount of product
 - (b) at a current precious metal spot price, or the London fix.
4. For purchases based on the London AM or PM gold fix, the London Bullion Market Association levies an additional charge per troy ounce for this service. This is charged to you.
5. The deposit of funds into your account does not automatically initiate the purchase of metal. This will only occur once you have issued specific instructions.
6. The Perth Mint Depository will issue a buy quote to you by telephone, otherwise the buy transaction will be executed in accordance with your email instructions.
7. The Perth Mint Depository is unable to execute a transaction unless you have lodged a cash deposit equal to 10% of the total consideration of your proposed purchase (or the full amount in case of transactions over \$2 million), or already have sufficient funds on deposit with PMDP.
8. The Perth Mint Depository will email a transaction confirmation to you with details of the completed transaction and any outstanding funds, if any, needed to settle your account. Please review this confirmation and contact our office within 24 hours should you have any queries.
9. You may be required to deposit additional funds with PMDP by an indicated value date.
10. Your purchase will then be applied to your account.

Fund your account

The Perth Mint Depository (PMD) trades in AUD and USD.

Consequently, every PMDP account holder must select either AUD or USD as the default currency for their account. Further to this, the PMDP account is limited to a single bank account, which must be in the same name as the linked PMD account. This nominated bank account is the only account from which we will accept funds and to which we will send funds.

Some important information about the transfer of funds

- Funds must only be transferred from the bank account you nominate on the PMDP application form.
- Funds can only be sent from The Perth Mint back to the bank account you nominated on the PMDP application form.
- Any funds sent from a bank account different to your nominated bank account will be rejected. Due to bank processing times it may take up to six weeks for the funds to be returned to you.
- The Perth Mint converts foreign currency to AUD or USD as a service for our clients and has dedicated currency bank accounts to receive specific currencies.
- Please ensure the correct currency is sent to the correct currency bank - see details below. Funds sent to the wrong bank account risk being rejected and delays during the return may be experienced. Additional fees may also apply.
- If you are sending a currency not listed below, please send them to our Westpac bank account - see details below.
- All non-AUD and USD deposits must be converted to either AUD or USD. Please advise either on the bank transfer or via a separate email, into which currency (AUD or USD) you wish to have your funds converted.
