

Invest in one of the lowest cost gold ETPs via the ASX

INVESTMENT OBJECTIVE

PMGOLD is designed to track the international price of gold in Australian dollars and offers investors a simple, low cost way to access the returns on gold.

PMGOLD trades like a regular share and is purchased via a stock broking account.

Investments in PMGOLD are fully backed by physical bullion held by The Perth Mint, with metal stored on investors' behalf guaranteed by the Government of Western Australia.

PMGOLD units can be converted into gold holdings in a Perth Mint Depository account. Some units may be held under a custodial arrangement provided by a broker and that the broker would be able to arrange a SRN, that is specific to units held and will transfer. Depository account holders can choose to take delivery of physical gold bars. Fees and charges apply.
